Elderly Assistance

The American Dream has been from the founding days of this Republic: Life, Liberty and Property. I am committed to the taxpayers of Maricopa County to do all I can to make sure taxes are low and affordable. I am extremely concerned about the American Dream being lost as a result of rising property taxes. One of my goals is to move low income seniors from a Class 3 to a Class 6. This would lower their taxes and provide a Constitutional solution for this small group of qualified seniors. According to the Joint Legislative Budget Committee the state general fund would actually benefit by \$2.7 Million each year. It's A WIN, WIN Deal.

Additionally, I am committed to doing all I can to keep all homeowners in their homes. Government taxes should not be the reason a person loses their home. I will continue to work with the legislature to enact laws that protect all homeowners, including mobile homeowners, from having their homes sold at auction because property taxes are too high.

Investments Exceed Projections

Since taking office in January of 2017 the Treasurer's Office has increased the earnings from our Portfolio Investments from \$18 Million to just under \$100 Million in earnings thus benefiting the schools and the county by millions of dollars. My goal was optimistic and yet we exceeded the \$95 Million investment income forecast for FY2019 with \$97,660,888.38. Our Office is doing an excellent job of managing the taxpayers' money. To add more perspective to those figures, the amount of investment earnings from FY2017 through FY2019 has increased over 660%.
